

Meet the Night Sky

Join the Chino Hills State Park
Interpretive Association
the evening of Saturday, August 15th

Learn about the Stars

Time 7:30 pm - Midnight

Location: Rolling M Ranch in Chino Hills State Park

4721 Sapphire Road, Chino Hills (go 3 miles up road)

Cost: Event is Free to the Public (Park Use fees may apply)

Join us for a night sky program in the State Park to learn about the night sky and then view the sky through telescopes, which will be provided for a close-up look.

Our special guest speaker, Jeff Schroeder, will provide a fabulous tour of the night sky. He will point out important objects in the sky that night, such as the Perseids Meteor Showers, which will be on full view in mid-August. He will answer any questions you have about the night sky. There will also be meteorites on display.

Jeff Schroeder is the founding member of the Pomona Valley Amateur Astronomers in 1972. He recently retired after 35 years as an Optical Engineer and Flight Technician at NASA's Jet Propulsion Laboratory, where he worked on Galileo, Cassini, Infrared Astronomy Satellite, LDEF, Orbiting Carbon Observatory, SRTM, and many other missions.

He also has spent 36 years as the lecturer and show producer at the Mount San Antonio College planetarium. He presently is a part time operator of the 60" and 100" telescopes at Mt. Wilson.
